Clippings - Volumes One and Two

This started as a clipping file about CMC and grew to include clippings related to cases I did that range beyond specific stories about CMC activities.

It seems like a good way to 'tell the story of my times'. People are more interested in this than more careful exposition. And I confess I am more interested in sorting the clippings than writing my recollections of particular cases and issues. Maybe another day that will change. I'm not much better than everyone else in trusting the amount of newspaper coverage as the measure of 'importance'. As a libel lawyer I know better than to trust the accuracy.

The collection of clippings is a mess and missing a number of significant (to me) items. Work to be done. This Index is a work-in-progress. It needs some kind of brief accompanying text. Also some cross referencing to binders, e.g. Legal and General Diary where there are write-ups, public and private, on various cases and the issues involved.

Volume One

Early

Nursery School Band - a newspaper photo when I was five, I think from the Star

'Fidel' Campbell - High School U.N. Club - photo is in The Book of Me.

It was in the Star in 1963 as part of their coverage of The United Nations Model Assembly. I've lost the clipping. It's utterly ridiculous, me in a three piece suit, pretending to be the leader of Cuba during the missile crisis. Also 'meaningful' to me. Started my move to the left.
